Greetings to All,

June was a very eventful month for the club. We had a great night fly and BBQ even though it was windy and cold. The new grill performed as anticipated with a little technical assistance from Dan Kellogg. Brian Holloway in his first outing as head chef did an outstanding job. Flying was not as good as the food though some did fly.

The park's annual event celebrating the lake's anniversary was held the same day and we staffed the booth with Rodney Getty, Bob Brelsford and myself. We had 3 planes for show and Bob brought a radio and receiver hooked to servos for kids to wiggle around. We were next to the climbing wall so we did have quite a few visitors. The event planners thanked the club for participating and provided a shade shelter, tables and chairs. I think it was a worthwhile thing to do and I expect the fall event to be even better for club exposure.

The airshow was great! Although we had some can-

Denver R/C Club Meeting Minutes
June 21, 2017

DRCE Meeting minutes for June 21, 2017
Location Colpens Hobby Town, 1915 S. Havana St. Aurora CO 80014
Call to Order: 6:30pm 21 members present, we have a quorum

The meeting started with our guest speaker, Robert “Tony” Zang, who gave a talk on his experiences in the US Air Force flying a multitude of “Century Series” jet fighters. He talked about his time during the Vietnam conflict, with 100 combat missions flying the F 105 “Thud”. Of over 800 F 105’s built, over half this number were lost in Vietnam.

He later became a primary test pilot for the F 5 Freedom Fighter and A-10 Thunderbolt II, and worked on projects such as the U-2.

Later, after retirement from the USAF, he joined United Airlines as an engineering test pilot flying the B 757, B 767, and the B 777.

Tony had a very illustrious career in the military, and with United Airlines. We express our sincere thanks for your courage and skill during a very difficult time.

Minutes of the May meeting: Motion to approve, MT: Mitch Long, 2nd: Sid Gates. Carried.

President’s Report: Loren Anderson said the shade shelter drawings are in and have been submitted to the park and to the Army Corps of Engineers for approval.

Treasurer’s report: 119 members are now registered for 2017, 87% of max for 2016, and 1% higher.

than last year at this time. The club is solvent. We also paid for a new airshow sign, and for the new grill which got its test run for the Evening BBQ, and will make its major debut at the Airshow.

Bob Pash on safety: Stay hydrated the sun is hot and it is dry. A crash occurred in the pits east of the N/S runway. Please be careful when flying aerobatics, try to fly to the opposite side of the active runway. A new wind sock has been ordered, and should be in place for the June Airshow.

Evening Fun Fly & BBQ of June 17: cold and windy, which probably kept the turn-out low. But great fun for those who attended.

Cherry Creek Park event of June 17: Loren Anderson, Bob Brelsford and Rodney Getty manned the DRCE booth. The event went well by all accounts.

June airshow for June 24: Jack gave a rundown on the upcoming airshow, who is responsible for what roles, and the event time table.

Show and tell: Sid Gates gave an update on his electric fiberglass F-15. Bob Smith showed his new Avanti jet from Motion RC, it is a real winner.

Bob Smith described his new EDF yellow jet.

Door Prizes:
- Colpar $10 gift card Mitch Long
- Lead weights Rodney Getty
- Sanding sticks Jack Steinhauser
- Xacto knife set Bob Smith
- 5 minute epoxy Mike Eason
- Heat shrink tubing Bob Pash
- CA glue Martin Miller
- Micro spring clamps Tony Zang

Motion to adjourn: 8:23pm: 1st Bob Smith, 2nd Jack Steinhauser
cellations, we still awed the audience with a great show. The chef did such an excellent job that the food was a sellout! Brian will have a tough time living up to that performance in the future.

We need to thank Jack Steinhauer for all the logistics, planning and coordinating that he did. Fantastic job! Announcing was great and very helpful to the visitors not familiar with RC modeling. Additionally, special thanks for all the Pilots who flew to the delight of the crowd. A thanks to the pit management for keeping planes in the air and on schedule. Our gratitude to John Dickens and others that stepped up to help with getting this event started, setup and cleaned up afterward. Thanks for what you do.

The children who participated in the free glider and design had a fun time coloring and competing flying their planes. On this page there are several photos of the kids at work.

This show will be hard to beat for the fall, but the challenge is there in front of us to exceed.

Again, thanks to all who made this event a success.

Sincerely,

Loren Anderson
